BOOK SYSTEMS RELEASES ATRIUM 8.0

Atrium 8.0 debuts new OPAC interface with over 20 product enhancements

Book Systems, Inc. unveiled an update for its world known web-based library software, Atrium. The 8.0 update, available to libraries currently using Atrium and up-to-date on their maintenance, allows customers to operate the software more efficiently and effectively. The main highlight of the 8.0 update is the new OPAC interface, accompanied by several new OPAC configurations and an updated KidZviZ theme.

The exciting new OPAC update provides a visually appealing interface making it easier for patrons to reach their search destination. Atrium 8.0 allows librarians to interactively customize their OPAC interface with different layouts. Layouts include new features like an interactive "What's Hot" carousel, "Featured" item widget, and tabs for easy access to Lists, Links, etc.

About Book Systems, Inc.:

Book Systems, Inc. provides cost-effective, feature-rich library, textbook & asset management software that delivers solutions to libraries and schools of all sizes. Book Systems is a privately-owned company with its corporate headquarters located in Huntsville, Alabama.
