Madison County School District moves to Atrium

Madison County School District, composed of 26 sites, successfully moved to Atrium earlier this year. Madison County is composed of 16 elementary schools, 4 middle schools, and 6 high schools. The librarians were very excited to move to a Web-based software that offered many more options for the students. The ability to choose from over 40 themes for the **OPAC** will create more interest in the card catalog.

The librarian at Madison County High School commented on the training: "I loved being able to work in real-time on my own data. That experience was what set this training apart from most other training sessions I have attended."

Book Systems Inc. provides affordable, feature-rich library and textbook software that delivers solutions to libraries and schools of all sizes. Our software is suited to fit the needs of librarians in a technology-driven world, while still being easy to learn and user-friendly. Atrium offers an easy-to-use circulation desk, quick cataloging, MARC editing, analysis, easy-to-create reports, and theme choices. Additional modules for serials and acquisitions are also available. Our software provides more features and demands fewer resources. Book Systems is dedicated to quality and customer satisfaction and has implemented library automation solutions in thousands of libraries around the world. The company's philosophy is very simple: create quality products; test them with input and direction from librarians in the field, and back them up with renowned customer service and support.
