Millbury Public School District located in Millbury, Maine goes Live on Atrium

Millbury is composed of approximately 2,000 students in primary, elementary and junior/senior high schools. The students and teachers are excited by the move to a Web-based library software. Atrium offers over 40 themes for customizing the look and feel of the OPAC patrons can access from home or within the physical library. Also, a wide range of standard and customizable reports allow the librarian to analyze the collection to better serve the curriculum.

The purchase of Atrium will support the goals of the school system:

“The mission of the Millbury Public Schools is to provide a school climate that accepts all students of varying abilities and interests and provides them with a wide variety of learning experiences so that they will have the essential skills and abilities to be life long learners and contributors to improving the quality of life for themselves and future generations.

Book Systems Inc. provides affordable feature-rich library and textbook software that delivers solutions to libraries and schools of all sizes. Our software is suited to fit the needs of librarians in a technology-driven world, while still being easy to learn and user-friendly. Atrium offers a graphical circulation desk, quick cataloging, MARC editing, analysis, easy-to-create reports, and theme choices. There are also additional modules available for serials and acquisitions. Our software provides more features and demands fewer resources. Book Systems is dedicated to quality and customer satisfaction and has implemented library automation solutions in thousands of libraries around the world. The company's philosophy is very simple: create quality products; test them with input and direction from librarians in the field, and back them up with renowned customer service and support.
