Webster County School District moves to Atrium

Book Systems, Inc. is proud to announce that Webster County School District in Eupora, Mississippi recently went live with Atrium in their 4 school libraries.

Webster County School states their mission to be:

"The mission of the Webster County School District is the education of its youth to the extent that each will be prepared to pursue his/her life time goals, satisfy his/her personal, physical and social needs, and assume responsible and productive citizenship in a democratic society. In providing a school program to meet the needs, the values, aspirations and demands of the community, this will be reflected in the curriculum and method of instruction. The programs of instruction will be designed and administered as to meet the diverse needs of individual students."

Atrium's software will assist the students, teachers and parents in reaching the mission outlined by the School Board. At Book Systems, we stay up-to-date in the world of programming and product development. Webster librarians will be able to add extra content such as images, media clips, scanned documents, URLs, and book covers to bibliographic records to offer a richer search experience for patrons using the OPAC.

Atrium is a leader in professionally meeting its clients needs. Book Systems, Inc. offers great assistance and training during the transition to Atrium.

Book Systems Inc. provides affordable feature-rich library and textbook software that delivers solutions to libraries and schools of all sizes. Our software is suited to fit the needs of librarians in a technology driven world, while still being easy to learn and user-friendly. Atrium offers an easy-to-use circulation desk, quick cataloging, MARC editing, analysis, easy-to-create reports, theme choices, serials, and acquisitions. Our software provides more features and demands fewer resources. Book Systems is dedicated to quality and customer satisfaction, and has implemented library automation solutions in thousands of libraries around the world. The company's philosophy is very simple: create quality products; test them with input and direction from librarians in the field, and back them up with renowned customer service and support.
