

Atrium® + PowerSchool

An Essential Combination for Your District

Atrium and PowerSchool SIS API Integrations

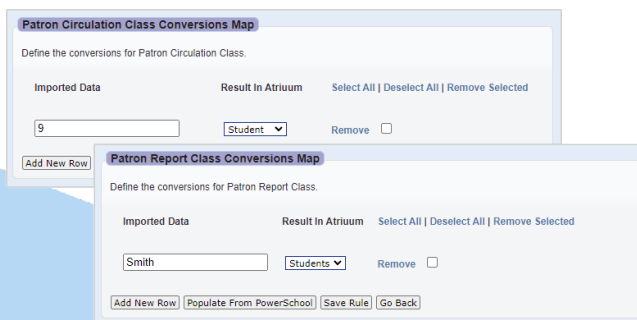

Atrium and PowerSchool's SIS provide your district with the most powerful, comprehensive solutions for managing your library and student information.

Atrium now supports secure student data integration with your PowerSchool SIS using the PowerSchool API*.

* Also available for Booktracks (*sold separately*).

Discover how to automate and simplify importing student data into Atrium

How does it work?

Easily maps and securely sends student data from PowerSchool to Atrium's Patron Report Classes and other patron fields, which ensure accuracy and proper reporting.
