

Atrium®
for Churches

Online Library Automation Solution

PROVIDES YOUR CONGREGATION WITH INSTANT ACCESS

Atrium is our 100% web-based library system for your church. Your library staff and patrons will have instant access to resource materials from any computer or mobile device with an internet connection.

Atrium offers many features including:

- Cataloging, Circulation, Inventory, Reports, and Online Catalog (OPAC)
- Quick Cataloging for downloading free MARC records
- Flexible OPAC Themes including Religious, Holidays, Seasonal, and KidZviZ
- Online patron self-service features; i.e., review account, place reserves, etc.

Atrium® EXPRESS

Hosted Service (Hosted by Book Systems)

Stress-Free Setup, Hosting, and Maintenance

At Book Systems, we use the latest cloud-based technology to reduce your cost and free up resources. Our Express Software-as-a-Service (SaaS) is a subscription-based hosting service that provides an affordable hosting option. No server required. Includes unlimited 24/7 user access and backups.

To learn more, visit our website: <https://booksys.com/hosting>

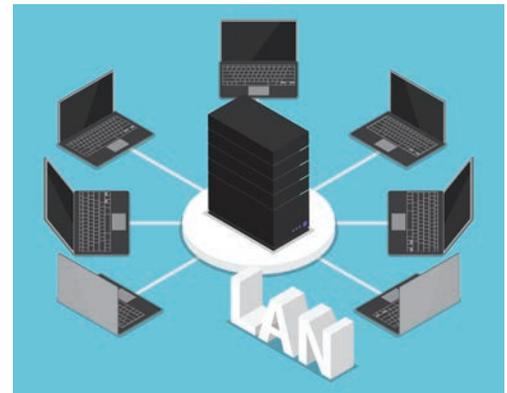

Atrium®

Self-Hosted Service (On-Premise Solution)

Locally Hosted and Self-Managed Solution

Atrium Self-Hosted is an on-premise solution designed for customers who prefer to have Atrium installed and running on their internal network and server. BSI technicians remotely perform scheduled software updates. However, remote access to Atrium, server updates, and backups are managed and maintained by your internal IT department. Subscribe to our Remote Backup Service (RBS) for added peace of mind and off-site data protection.

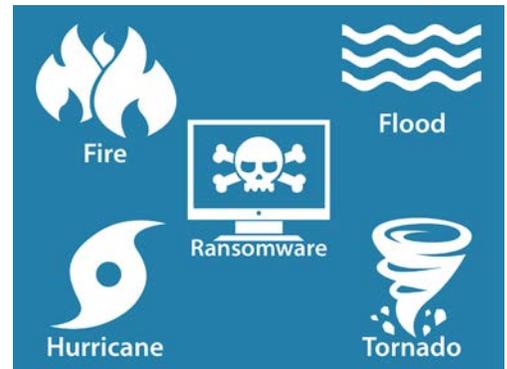

To learn more, visit our website: <https://booksys.com/atrium>

Security and Peace of Mind for Self-Hosted Customers

Protect your library's database from natural disasters, ransomware, and other unforeseen technical crises by subscribing to Remote Backup Service (RBS). Your library's data will be automatically backed up and stored off-site on a daily basis. Subscribe and use Book Systems' RBS to recover your Self-Hosted Atrium database after disasters occur.
