## **BOOK SYSTEMS PUTS THE LIBRARY IN PATRONS' POCKETS**

New Mobile App Gives Library Patrons Access to Atrium from Mobile Devices

Book Systems, Inc. released its new "Atrium on the Go" app currently available on the Google Play Store. The mobile app for Atrium gives you instant access to the library catalog from your favorite mobile device. Search for books, eBooks, DVDs, CDs and more. Use your mobile device to reserve a popular title, renew items, read reviews and even see a list of "What's Hot" at your local library. You can access My Items at any time to manage your account and book bags. Want to know if a new release is available at your library? While you are at your favorite book store, use the scan ISBN feature to capture the ISBN located on the physical item and search your library's collection.

The "Atrium on the Go" app can be found through the Google Play Store under Apps by searching *Atrium on the go*. Although the app is only available to libraries running Atrium, those currently using other library automation systems can contact Book Systems for special pricing information on upgrading to Atrium.

### **About Book Systems, Inc.:**

Book Systems, Inc. provides cost-effective, feature-rich library, textbook & asset management software that delivers solutions to libraries and schools of all sizes. Book Systems is a privately-owned company with its corporate headquarters located in Huntsville, Alabama.
