Book Systems, Inc. Releases Atrium 9.6

Book Systems is pleased to announce the release of Atrium v9.6. This release is packed with many new features including customizable keyboard shortcuts, ability to create worker messages, My Reports menu, a debt management module, and more.

In addition, we've added the ability to integrate Atrium with a variety of third-party vendors. Atrium's OPAC now offers fine payment via PayPal, access to digital content from MackinVIA, and support for EBSCO's Novelist Select subscription. These integrations were all customer requested enhancements.

"We know that libraries have a choice on which ILS vendors' product(s) they use. Our customers remain loyal because they know we focus on putting them first! We listen and deliver on that promise," said Doug West, Chief Operations Officer for Book Systems.

Thank you to all of our customers for your loyalty, support, suggestions, and feedback for improving our products and services.

For us, it really is "all about you!"

About Book Systems, Inc.:

Book Systems provides state of the art library automation and asset management software to a variety of institutions including schools, publics, special, and academics. The company's core values have led them to develop and deliver stress-free "cloud computing" technology, customer-driven features, and hands down, the best support in the industry. Incorporated in 1989, Book Systems is a privately-owned company with its corporate headquarters located in Huntsville, AL.
