Book Systems Welcomes Cochrane-Fountain City School District to Booktracks

Cochrane-Fountain City School District in Fountain City Wisconsin has automated their management of textbooks. By moving to Booktracks, the PreK-12 school will be able to distribute and manage their textbooks much more effectively. Because Booktracks is fully Web-based, it provides the school system the ability to access the software from anywhere with Internet connections. Form letters can be sent to parents notifying them of the textbooks their children have checked out and the cost of the textbook. Accountability is important with the high cost of replacing textbooks. Teachers are excited about the move to Booktracks.

About Book Systems, Inc.:

Book Systems, Inc. provides affordable, feature-rich library and textbook management software that delivers solutions to libraries and schools of all sizes. Booktracks, our Web-based textbook management solution, was designed to protect one of the district's most valuable assets - textbooks. Our software is suited to fit the needs of the textbook coordinator in a technology-driven world, while still being easy to learn and user-friendly. Booktracks offers easy-to-use Self Check Out and Self Check In Stations, quick cataloging, and standard and customizable reports. Book Systems is dedicated to quality and customer satisfaction. The company's philosophy is very simple: create quality products; test them with input and direction from librarians and textbook coordinators in the field; and back them up with renowned customer service and support. Book Systems is a privately-owned company with its corporate headquarters located in Huntsville, Alabama, where NASA's space programs and other government technologies have created a vibrant environment of innovation. Further information is available at www.booksys.com and www.booktracks.net
