Howe Independent School District Implements Booktracks, Textbook Management Solution

Book Systems, Inc. is proud to announce that Howe Independent School District in Howe, Texas is now using Booktracks to distribute and collect textbooks. Howe is composed of three schools: one high school, one middle school, and one elementary school. Booktracks was needed to replace the previous paper-and-pencil method of tracking textbooks.

With Booktracks, the school system is working to save money by reducing the replacement cost of textbooks and the ordering of un-needed textbooks by automated distribution and collection. Booktracks Textbook Management encourages accountability by all persons dealing with the textbooks.

Book Systems, Inc. provides affordable, feature-rich library and textbook management software that delivers solutions to libraries and schools of all sizes. Booktracks, our Web-based textbook management solution, was designed to protect one of the district's most valuable assets - textbooks. Our software is suited to fit the needs of the textbook coordinator in a technology-driven world, while still being easy to learn and user-friendly. Booktracks offers easy-to-use Self Check Out and Self Check In Stations, quick cataloging, standard and customizable reports, and more. Book Systems is dedicated to quality and customer satisfaction. The company's philosophy is very simple: create quality products; test them with input and direction from librarians and textbook coordinators in the field, and back them up with renowned customer service and support. Book Systems is a privately-owned company with its corporate headquarters located in Huntsville, Alabama, where NASA's space programs and other government technologies have created a vibrant environment of innovation. Further information is available at www.booksys.com and www.booktracks.net
