Madison City Schools Implements Atrium

Book Systems Inc., a national leader in library technology, is pleased to announce that Madison City School District has gone live with Atrium in their nine school libraries.

Atrium is 100% web based and will provide the students and teachers access to the library from anywhere that they have an internet connection. The librarians will have access to real-time reporting, allowing them to have a better knowledge of their collections. Atrium utilizes today's technology, giving librarians and students the best access to the library resources.

Madison will now be using both Book Systems, Inc. products: Booktracks for the textbook management and Atrium for their library management. The staff and students are excited with the addition of the new features of the new software.

Book Systems Inc. provides affordable feature-rich library software and textbook management software that delivers solutions to libraries and schools of all sizes. Our software is suited to fit the needs of librarians in a technology driven world, while still being easy to learn and user-friendly. Atrium offers an easy-to-use circulation desk, quick cataloging, MARC editing, analysis, easy-to-create reports, theme choices, serials, and acquisitions. Our software provides more features and demands fewer resources. Book Systems is dedicated to quality and customer satisfaction, and has implemented library automation solutions in thousands of libraries around the world. The company's philosophy is very simple: create quality products; test them with input and direction from librarians in the field, and back them up with renowned customer service and support. Further information is available at www.booksys.com.
